

Bravo Health Mid-Atlantic Adds a New Washington, D.C. Hospital

December 11, 2008

Bravo Health Mid-Atlantic is pleased to announce the addition of a new network hospital in the District of Columbia, Providence Hospital. Providence Hospital is a well-regarded, 238-bed Ascension Health System hospital that serves residents of northeast D.C. and the Prince Georges suburbs. The Hospital is particularly attractive to residents in the following zip codes (shown in rank order): 20011, 20019, 20002, 20018, 20017, 20001, 20020, 20012, 20003, 20032.

Bravo Health contracts with approximately 55 physicians who maintain admitting privileges at Providence, and have offices in Providence's Professional Office Building on the campus or elsewhere in Northeast/Southeast DC or Prince Georges County. These physicians are listed in the Bravo Health directory. Bravo's provider network staff has begun a recruitment effort to contract with additional physicians whose offices are on the Hospital's campus, many of whom were waiting to join Bravo after the Hospital contract was complete.

We anticipate an expansion of the physician network throughout northeast D.C. as a result of this development, and will update the names of new participating physicians through the monthly directory addenda.

If you have any questions, please contact Bravo Health's Mid-Atlantic Network Management office at 410-864-4581 for further details.
